

INTERLAB

central lab services – worldwide

Training Certificate

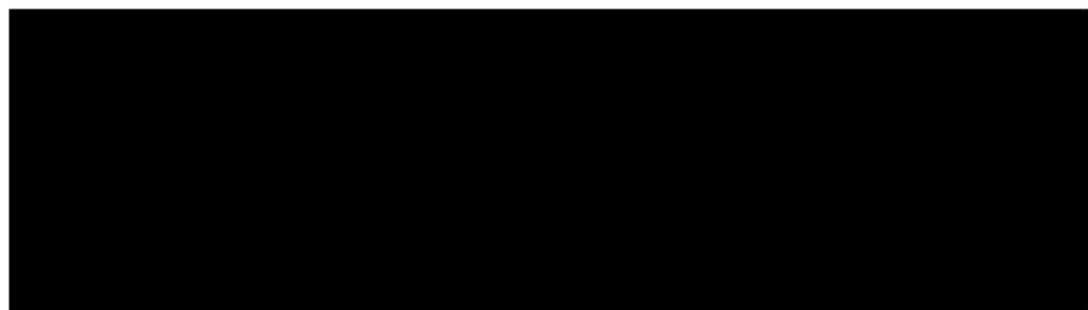

Mrs. / Mr. Ralf Seidenschwang

has successfully participated at the workshop described below:

Title: GXP: Pre-Analytical Factors affecting
Laboratory Results
When: September 29th, 2010
Where: INTERLAB Head Office in Munich
Credits: 1,5 academic hours

Content:

- pre-analytical factors to be taken into account when shipping biological samples:
 - correct patient information and preparation
 - blood collection procedures
 - organisational factors
 - sample transportation and stability; regulations
 - importance of appropriate training of doctors and nurses
- logistical aspects related to sample shipment: role of project and data managers, visit specific kits, instruction manuals, investigator meetings, turn-around-times.
- role of a central laboratory in clinical trials: normal vs. reference ranges.
